Fritwell Church of England Primary School

Special Educational Needs and Disability Policy

“Growing and learning together with God.”

Children at Fritwell Church of England School are confident and inspired. They achieve personal success and show love and respect for all.

Fritwell CE Primary School is an inclusive school. We take safeguarding very seriously and all of our policies are developed with a high priority on children's safety and in light of our safeguarding policy. Our school policies are interlinked and should be read and informed by all other policies. In particular, the SEND policy is linked to the behaviour, anti-bullying, medical and curriculum policies.

Fritwell CE Primary School is part of Bicester Learning in Partnership (BLiP), which encompasses a group of 17 local primary and 2 secondary schools, working together to improve provision for children with SEND. SEN Information about each school is available on their websites and explains how the partnership of schools supports children and parents. The website also includes a link to Oxfordshire's Local Offer for parents and children with SEN and disabilities.

This SEND policy is written to comply with the 2014 Children and Families Act and its SEN Code of Practice together with the Equality Act 2010.

The SEND team at Fritwell CE Primary School

Enquiries about an individual child's progress should be addressed at first to the class teacher since he or she is the person who knows the child best. Other enquiries can be addressed to the Special Educational Needs Coordinator (SENDCo). Please make an appointment with the school office if you wish to speak to the SENDCo.

Defining SEND

The 2015 Code of Practice says that:

“A person has SEND if they have a learning difficulty or disability which calls for special educational provision to be made for him or her. At compulsory school age this means he or she has a significantly greater difficulty in learning than the majority of others the same age, or, has a disability which prevents or hinders him or her from making use of facilities of a kind generally provided for others of the same age in mainstream schools.”

2015 SEN Code of Practice: 0 to 25 Years – Introduction xiii and xiv

- There are four broad categories of SEND:
 - communication and interaction
 - cognition and learning
 - social, emotional and mental health
 - physical and sensory.

SEND at Fritwell CE Primary School

Our objectives are:

- To identify and overcome at the earliest possible opportunity, barriers to learning and participation for pupils with SEND; (see also curriculum and assessment policies)
- To ensure that every child experiences success in their learning and achieves their full potential
- To enable all children to participate in an accessible broad balanced curriculum which is appropriately differentiated
- To value and encourage the contribution of all children to the broader life of the school
- To work in partnership with parents/carers, acknowledging their importance and depth of knowledge about their child
- To work with the Governing Body to enable them to fulfil their statutory monitoring role with regard to the Policy Statement for SEND
- To work closely with external support agencies, where appropriate, to support the need of individual pupils
- To ensure that all staff have access to training linked to identified needs, both on a partnership and individual school level and advice to support quality teaching and learning for all pupils

Types of SEND which we currently have in school include children with a diagnosis as well as those with learning profiles consistent with the diagnosis of:

Communication and Interaction

- autistic spectrum and language disorders

Cognition and Learning

- dyslexia, dyspraxia and dyscalculia; moderate learning difficulties.

Social, Emotional and Mental Health

- Attention Deficit Hyperactivity Disorder (ADHD), Attention Deficit Disorder (ADD), attachment disorders, emotional difficulties, mental health difficulties

Physical and Sensory

- Hearing impaired, motor difficulties

Identifying children at SENS (SEN Support)

Children with SEND are identified by one of three assessment routes all of which are part of the overall approach to monitoring progress of all pupils:

- The progress of every child is monitored at termly pupil progress meetings. Where children are identified as not making progress despite Quality First Teaching, they are discussed with the SENDCo and a plan of action is agreed.
- Class teachers are continually aware of children's learning. If they observe that a child, as recommended by the 2015 Code of Practice, is making less than expected progress, given their age and individual circumstances, they will seek to identify a cause. This can be characterised by progress which:
 - is significantly slower than that of their peers starting from the same baseline
 - fails to match or better the child's previous rate of progress
 - fails to close the attainment gap between the child and their peers
- Parents sometimes ask us to look more closely at their child's learning. We take all parental requests seriously and have a measured approach to addressing them. Frequently, the concern can be addressed by Quality First Teaching in partnership with parental support. The school will put in place appropriate strategies, personalised differentiation and/or interventions. If concerns still exist, the child is placed at SENS on the SEND register. All decisions will be made in consultation with parents/carers.

The partnership of SENDCos has a bank of assessment tools to enable schools to undertake a range of standardised tests with children. We can use these assessments to add to and inform teachers' own understanding and assessments of a child's strengths and needs.

Although the school can identify special educational needs, and make provision to meet those needs, we do not offer diagnoses. Parents are advised to discuss with their SENDCO or GP if they think their child may have ASD or ADHD or some other disability.

Issues which are not SEN:

It is important to point out the circumstances which are **not** classed as SEN, but which may hinder progress and attainment:

- Disability
- Attendance and Punctuality
- Health and Welfare
- English as an additional language (EAL)
- Being in receipt of Student Premium (or Student Premium Plus) Grant
- Being a Looked After Child
- Being a child of a Serviceman/woman
- Having behavioural difficulties where an underlying cause has not been identified

Working with Parents and Children

We aim to have good and informative relationships with all of our parents. If a child is experiencing difficulties, parents will be informed either at parents' meetings (autumn and spring terms) or during informal meetings to discuss the child's progress.

Once a child has been identified as having SEND, the class teacher will invite the parents/carers to a meeting to:

- formally let them know that their child is being placed at SEN Support
- discuss assessments that have been completed
- agree a plan and provision for the next term.

This is part of the graduated approach cycle of 'Assess, Plan, Do, Review' required in the Code of Practice.

Depending on the appropriateness, the child may be invited to attend all or part of the meeting. Records are kept of these meetings and copies are available to parents.

Thereafter, parents – and children- are invited to a meeting three times a year to review progress made, set targets and agree provision for the next term.

Paperwork for children at SEN Support (SENS)

Once a child has been identified as needing SEN support, the following paperwork is completed:

- Annually, a Pupil Profile is used to record the child's strengths and interests, what they enjoy about school, what they find hard and what helps them to achieve. This is usually completed with the child and parent and acts as a guide to their class teacher. The information may be updated during the year.
- Termly, at progress meetings, progress is reviewed and stakeholders' views recorded. The plan records specific outcomes for the child to achieve in a term, together with the personalised provision (which may be 1-1 or in a small group) put in place to enable the child to achieve these.

Moving to an EHCP (Education, Health and Care Plan)

If children fail to make progress, in spite of high quality, targeted support at SENS, we may apply for the child to be assessed for an EHC Plan. Generally, we apply for an EHC Plan if:

- The child is Looked After and therefore additionally vulnerable.
- The child has a disability which is lifelong and which means that they will always need support to learn effectively
- The child's achievements are so far below their peers that we think it likely that the child may at some point benefit from special school provision.
- There are a number of professionals involved with the child and it is important to formalise a shared vision for the child.

Children, who we think will manage in mainstream schools, albeit with support, are less often assessed for EHC Plans. Having a diagnosis (e.g. of ASD, ADHD or dyslexia) does not mean that a child needs an EHC Plan.

If the application for an EHC Plan is successful, a member of the Local Authority will call a meeting for parents, the child and the school, together with any health or social care professionals who are involved with the family. The meeting will record the child's strengths, their wishes and aspirations as well as the barriers they face. Following the meeting, the LA will produce the EHC Plan which will record the decisions made at the meeting and state the desired outcomes.

Teaching and Learning

We believe that all children learn best with the rest of their class. Our aim is for all children to be working independently, in class, at the cusp of their potential engaging in 'hard work' they can do. Children with SEN and disabilities are entitled to be taught by their teacher, not always by a TA. Teachers aim to spend time each day working with all children with SEND, individually or as part of a group.

When allocating additional TA support to children, our focus is on outcomes, not hours: we aim to put in sufficient support to enable the child to reach their challenging targets, but without developing a learned dependence on an adult.

The school has a range of interventions available. When considering an intervention, we look first at the child's profile of learning in order to select the intervention which is best matched to the child.

Targets for children at SEND are deliberately challenging in an attempt to close the attainment gap between the children and their peers. Interventions are often crucial in closing these gaps, so are monitored closely by both the class teacher- who monitors progress towards the targets during the intervention- and by the SENDCo who monitors overall progress after the intervention.

- Interventions are planned usually for a time specific period
- At the end of each block, children's progress towards their targets is assessed and recorded.
- A decision is then made as to whether to continue the intervention, to swap to a new intervention, or to allow the child to demonstrate their transferral of skills in a whole class environment.

The SENCo monitors interventions to evaluate their effectiveness.

Adaptations to the curriculum, teaching and learning environment

Our school is disability friendly. Please refer to our Accessibility Plan.

Other adaptations to the physical environment are made, as appropriate, to accommodate children with other needs.

All of our classrooms are inclusion friendly; we aim to teach in a way that will support children with tendencies towards dyslexia, dyspraxia or ASD. This is good practice to support all children, but is vital for those who particularly need it where possible. Most of our children access the full National Curriculum, and we recognise achievement and expertise in all curricular areas. As part of normal class differentiation, curriculum content and ideas can be simplified and made more accessible by using visual, tactile and concrete resources.

Access to extra-curricular activities

All of our children have equal access to lunchtime and after school clubs, which develop engagement with the wider curriculum. Where necessary, we make accommodation and adaptation to meet the physical and learning needs of our children. Class trips and residentials are part of our curriculum and we aim for all children to benefit from them. No child is excluded from a trip or residential because of SEN, disability or medical needs.

Staff Expertise

All of our teachers are trained to work with children with SEND. Some are very experienced, and all teachers have access to advice, information, resources and training to enable them to teach all children effectively. We offer training opportunities through access to in-house or Local Authority training, provision of books or guidance towards useful websites and other materials. We have good links with a range of outside agencies with specific areas of expertise and utilise these services where appropriate. The Bicester Partnership of Schools buys into the service of an Educational Psychologist.

The SENDCo of Fritwell CE Primary School is an experienced SENDCO who offers training, advice and shares resources with staff.

The school is able to access or buy-in additional expertise from the Local Authority where appropriate.

The school currently buys in to a Home School Link Worker.

Children with social, emotional and mental health needs

Behaviour is not classified as an SEND. If a child shows consistent unwanted behaviours, the class teacher will assess the child's needs, taking into account family circumstances and the child's known history of experiences. If the child's behaviour is felt to be a response to trauma or to home-based experiences (e.g. bereavement, parental separation) we may complete an Early Help Assessment form (EHA) with the family and support the child through the process of regular Team Around the Family (TAF) meetings which identify desired outcomes and how these outcomes can best be achieved.

If parents and school are concerned that the child may have mental health needs, parents can ask their GP or school for a referral to the Children and Adolescents Mental Health Service (CAMHS) or other specialist. Schools are unable to refer to a Community Paediatrician, but can support parents with this process, for example, by providing a report from school.

If the child is felt to have long-term social, emotional or mental health needs, for example with anger management, the school offers a range of social skills or therapeutic interventions. These are generally delivered by trained TAs who develop good, trusting relationships with the children. Outside agencies may be contacted if this is appropriate.

All children's behaviour is responded to consistently in line with our Behaviour Policy. Reasonable adjustments are made to accommodate individual needs.

The school has a zero-tolerance approach to bullying (See Anti-bullying Policy).

Transition Arrangements

Transition into and within school

We understand how difficult it can be for children and parents as they move into a new class or a new school. We make provision according to the individual needs of the child, to make transitions between classes/settings as smooth as possible. This may include, for example:

- Additional meetings for the parents and child with the new teacher
- Additional visits to the classroom environment/school
- Where appropriate, provide opportunities to take photographs of key people and places in order to make a transition book
- Provide additional time for children in small groups/individually to express their concerns and to address them.

Enhanced transition arrangements are tailored to meet individual needs. We have strong links with our partnership schools within Bicester and any other secondary schools to which children may be transitioning.

Governors

It is the statutory duty of the governors to ensure that the school follows its responsibilities to meet the needs of children with SEND following the requirements of the Code of Practice 2015. The school has a designated SEND governor.

Complaints

The school works, wherever possible, in partnership with parents to ensure a collaborative approach to meeting pupils' needs.

Any complaints are taken seriously and are heard through the school's complaints policy and procedure.

The Local Offer

The purpose of the local offer is to enable parents and young people to see more clearly what services are available in their area and how to access them. It includes provision from birth to 25, across education, health and social care. Oxfordshire's Local Offer is available from the website <https://www.oxfordshire.gov.uk/cms/public-site/special-educational-needs-and-disability-send>

Equal Opportunities

The school is committed to providing equal opportunities for all, regardless of race, faith, gender or capability in all aspects of school. We promote self and mutual respect and a caring and non-judgmental attitude throughout the school

Review Framework

The policy will be reviewed annually (or sooner in the event of revised legislation or guidance)
